CompTIA Security+ | Cybersecurity Student | Entry-Level IT / SOC Candidate

PROFESSIONAL SUMMARY

CompTIA Security+ certified cybersecurity student transitioning into information technology after more than nine years of customer service experience and three years of management experience. Brings strong troubleshooting, documentation, leadership, communication, and process-improvement skills, with hands-on learning through TryHackMe and current preparation for Microsoft Azure Fundamentals (AZ-900). Seeking an entry-level IT support, SOC analyst, or cybersecurity opportunity.

TECHNICAL SKILLS

Security & Monitoring: CompTIA Security+, Splunk, security fundamentals, log analysis basics

Networking: TCP/IP and networking fundamentals, connectivity troubleshooting

Systems: Windows, Linux fundamentals, Microsoft Office, computer hardware

Professional: Technical support, documentation, customer service, team leadership

CYBERSECURITY DEVELOPMENT

- Complete hands-on TryHackMe labs focused on networking, Linux, security concepts, and troubleshooting.
- Study Microsoft Azure cloud services, security, governance, architecture, and pricing in preparation for the AZ-900 certification.
- Build practical familiarity with Splunk and security monitoring concepts while strengthening foundational SOC skills.

PROFESSIONAL EXPERIENCE

Wholesale Representative | DCD Automotive Holdings, Norwood, MA Aug 2025-Present

- Ranked highest on the team for sales performance while supporting wholesale clients and resolving order-related issues.
- Coordinated with distribution centers and delivery teams to improve fulfillment and reduce mis-shipments.
- Documented customer needs, tracked outcomes, and communicated across departments to resolve problems efficiently.

Parts Manager | Best Chevrolet, Inc., Hingham, MA Jul 2024-Aug 2025

- Managed employee scheduling, performance, training, and daily workflow for a customer-facing operations team.
- Improved inventory controls by reorganizing part numbers and storage locations, reducing time spent locating parts.
- Prepared reports for senior management and implemented procedures that improved accuracy, productivity, and service.

Dispatcher | Best Chevrolet, Inc., Hingham, MA Jul 2023-Jul 2024

- Maintained accurate records in a computer tracking system and documented operational changes.
- Forecasted staffing needs, coordinated cross-department initiatives, and ensured timely completion of customer requests.
- Planned and assigned work while troubleshooting scheduling and service issues in a fast-paced environment.

Territory Manager / Wholesale Sales Representative | Priority1 & Best Chevrolet, MA / AR Jun 2016-Jul 2023

- Managed customer accounts, documented activity, resolved service concerns, and built long-term client relationships.
- Used consultative communication and problem-solving to identify needs, recommend solutions, and meet performance goals.
